HOSPITAL FOR SPECIAL CARE

Welcome to Manes & Motions Therapeutic Riding Center, Inc. We are a not-for-profit organization dedicated to improving the well-being of children and adults living with physical, cognitive and/or emotional special needs through the benefits of equine-assisted activities. Our commitment to excellence is demonstrated through our affiliation with Hospital for Special Care, and as a premier accredited center through the Professional Association of Therapeutic Horsemanship International (PATH Intl.).

Open year-round, Manes & Motions offers individual and group lessons staffed by PATH Intl. certified instructors and trained volunteers. Based on the needs of each participant, we explore the benefits of the human-equine bond through mounted and/or unmounted lessons providing participants with opportunities to develop riding and horsemanship skills.

To apply for services, please follow the application process below:

- Complete and return the attached forms. (In compliance with PATH Intl. professional standards, and as noted on the medical form, individuals with Down Syndrome are required to have medical clearance from a licensed physician which includes a neurological exam that specially denies any symptoms consistent with atlantoaxial instability).
- Schedule an assessment once all paperwork has been completed.
- Placement status will be discussed with each participant upon completion of the assessment.
- The semester's tuition is required at time of enrollment in order to secure placement.

Please understand that many factors weigh into the placement of a participant such as resources, schedule availability and the presence of certain medical and/or behavioral conditions. These aspects, along with others, help determine a participant's ability to participate in the program in a safe and meaningful way.

For further information, please contact Manes & Motions at 860.685.0008. Again, thank you for your interest in our services and we look forward to meeting you.

Sincerely,

Sarah Castellani Program Manager
